DC290 Sliding Door Closer

The Doric DC290 sliding door closer is suitable for application to sliding screen and security doors. Designed with easy installation in mind the DC290 can be fitted to most existing aluminium sliding doors with minimal effort. The adjustable mechanism gives users control over closing power and speed enabling each closer to be custom fitted to specific user requirements. The DC290 is ideal for applications where doors are frequently left open allowing pests and insects to enter.
