All Purpose Fast Fix Hinge

**Tested to 1000 hrs (NSS)
Neutral Salt Spray
304 Grade SS**

Doric DH60 “All Purpose Fast Fix Hinge”

Introducing the NEW Doric DH60 “All purpose fast fix hinge”

Suitable for Commercial & Residential applications, the NEW Doric DH60 all purpose commercial hinge is manufactured from premium grade 304 stainless steel.

Whilst there are numerous hinges on the market today, few have surpassed 1000 hours of Neutral Salt Spray testing, making the DH60 well placed to with stand any environment.

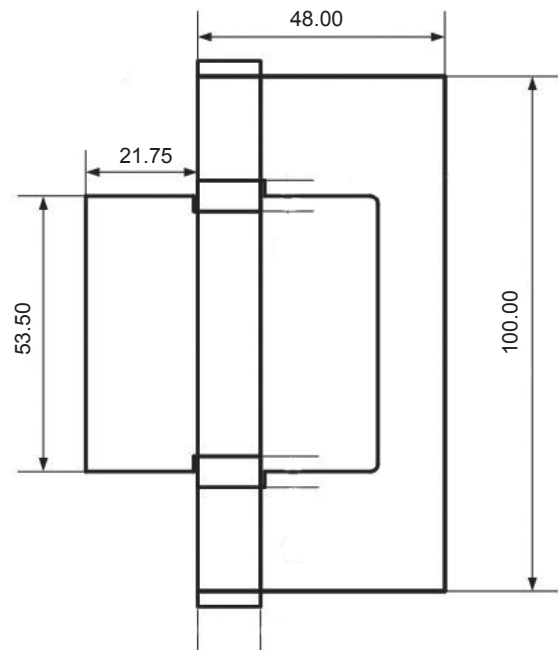

It is a known fact that tea-staining will occur on all stainless steel if not maintained, but only the genuine article will continue to operate in such harsh environments.

Note: Tea Staining will occur on all stainless steel that is not maintained. Doric recommends in order to avoid any unsightly staining that a regular spray of Inox or WD40 will prevent most tea staining.
