

DR2009 Series **Heavy Duty Timber Roller**

Doric

DR2009 Series Heavy Duty Timber Roller

The DR2009 Series roller is a high performance product suited for residential timber door applications. Manufactured with an engineered polymer outer carriage housing and passivated zinc inner carriage, this adjustable roller offers superior corrosion resistance and durability. The DR2000 roller provides “ZZ” bearing performance rating and is moulded with a high performance engineered polymer that gives superior load rating and cycle testing.

Features

- Suits timber Sliding doors.
- Fully adjustable carriage gives 10mm height adjustment.
- Outer carriage and internal assembly manufactured to withstand corrosive environments.
- High performance roller with “ZZ” bearing and dust seal.
- Roller ZZ bearing with ground precision bearing for corrosion free operation.
- Passivated metal inner carriage..
- Recommended for larger sliding doors up to 200kg.
- Stainless steel adjusting screw and nut.

Technical Specifications

Materials

Outer Carriage:	Engineered polymer
Inner Carriage:	Cast zinc passivated
Tyre:	DR 71 high performance polymer with “ZZ” bearing and dust seal.

Finish Available: Black

Max Load Capacity: 100kg per carriage

Cycle Rating: 30,000
