Technical Specifications

Features

- Patented adjustable chain length limiter feature built-in.
- Lifetime warranty for corrosion on body and base.
- Left and right hand options.
- Only 16 winds to fully open or closed.
- Non-handed fold away lever, finished in chrome plate with simple push button action to eliminate transit damage and interference with drapes.
- Rated to operate a 30kg window.
- Chainwinder footprint similar to existing industry standards allowing easy replacement and retrofitting.
- Stainless steel fixings as standard, for corrosion resistance.
- Optional 304 stainless steel chain for added corrosion resistance, standard chain is gold passivated mild steel.
- Spring back mechanism helps keep chain straight during travel ensuring smooth chain travel.
- Complies with AS2331.3.1 neutral salt spray test Standard (720 hours) and exceeds the AWA Hardware ICP requirements of 96 hours.
